SUMMARY

Reporting and operations professional with 3 years of experience working with business data. I prepare MIS reports, build dashboards and use Excel, Power BI and SQL to help teams understand their numbers. My work covers inventory, production and supply chain reporting, along with cost analysis, budgeting and forecasting. I enjoy making reports easier to use and finding practical ways to improve everyday processes.

EXPERIENCE

Cougar Knitwear — Online Officer & Reporting Specialist

Prepare daily, weekly and monthly reports that help management track stock, production and operational performance. Review inventory and supply chain figures, spot changes in performance and share findings with the relevant teams. Work with operational data for cost analysis, budgeting and forecasting. Build Excel reports using Pivot Tables, XLOOKUP and formulas, reducing repetitive manual reporting work. Check records from different departments and resolve data inconsistencies before reports are shared. Use dashboards and Power BI to present information in a clear, easy-to-follow format.

Dastak Program, Government of Punjab — Field Facilitator / Data Collector

Collected information through digital field surveys and checked citizen records for accuracy. Worked with community members and field teams to support day-to-day service delivery.

Qadir Foundation — Systems & Office Administrator

Managed office records, routine administration and logistics. Organized digital files and handled high-volume data entry to keep records accessible and up to date.

EDUCATION

Govt. Post Graduate College Bhakkar (GCUF) — Bachelor's (14-year) in Computer Science

Qadir Foundation, Bhakkar — Diploma in Information Technology (DIT)

Govt. Post Graduate College, Bhakkar — FSc Pre-Engineering

CERTIFICATIONS
